Application No.: 10/718,629

Examiner: J. RHEE

Filed: November 24, 2003

Docket No.: 117844

For: FUEL CELL SYSTEM WITH IMPROVED STARTABILITY

**RESPONSE TO ELECTION OF SPECIES REQUIREMENT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In reply to the July 12, 2006 Election of Species Requirement, Applicants provisionally elect Species I, with traverse. Claims 1-11 read on the elected Species.

It is also respectfully submitted that the subject matter of all species is sufficiently related that a thorough search for the subject matter of any one species would encompass a search for the subject matter of the remaining species. Thus, it is respectfully submitted that the search and examination of the entire application could be made without serious burden. See MPEP §803 in which it is stated that "if the search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions" (emphasis added). It is respectfully submitted that this policy should apply in the present application in order to avoid unnecessary delay and expense to Applicants and duplicative examination by the Patent Office.

Thus, withdrawal of the Election of Species Requirement is respectfully requested.

Respectfully submitted,

James A. Oliff  
Registration No. 27,075

Mario A. Costantino  
Registration No. 33,565
